**MASSIVE OPEN ONLINE COURSE**

# An evolving online safety landscape

**Dates:** 11 March – 17 April (4 weeks)

**Estimated workload:** 3hrs/week – 12hrs in total

**Target audience:** The course is targeted at primary and secondary school teachers of any subject. Other educational professionals and stakeholders, such as heads of schools, school support staff, and policy makers with an interest in this topic are welcome to join also.

Children today encounter a digital landscape that is both dynamic and complex. While the internet offers a wealth of information and connectivity, it also poses risks. Cyberbullying, inappropriate content, and online privacy concerns are just a few of the challenges young individuals face.

Our latest MOOC, "An evolving online safety landscape – supporting children and young people to have more positive online experiences," is your gateway to understanding and shaping this vital aspect of the digital age.

## Discover, Learn, Empower: Why join our MOOC?

- **Digital Rights Mastery:** Understand the nuanced digital rights of every child, crucial for fostering a secure online environment.

- **Empowerment Skillset:** Identify and cultivate the essential skills and competences needed for a positive and healthy online presence.

- **Insights into EU Initiatives:** Gain knowledge on key EU policies like the BIK+ strategy and Digital Services Act, and their impact on the digital experiences of children and young people.

- **Educational Strategies:** Explore the pivotal roles of teachers, schools, and families in raising awareness, developing competence, and encouraging active participation.

## Why Enrol?

Join us in this insightful journey to empower youth and contribute to a digital era that prioritises safety, positivity, and inclusivity. Enroll now to shape the future of online safety and education.
